this study examines the relationship between the people s republic of china and the people of east turkistan specifically between china s settler colonialism and east turkistan s independence movement what distinguishes this study is its dispassionate analysis of the east turkistan s national dilemma in terms of international law and legal precedent as well as

the prudence with which it distinguishes substantial evidence from claims of china s crimes against humanity and genocide in east turkistan that have not been fully verified yet the author demonstrates how other states have ignored the nature of that relationship and so avoided asking key questions about east turkistan that have been asked and answered about other occupied and colonized states the book analyzes this situation and provides the tools and the argument to understand east turkistan s actual status in the international community currently the world has bought into china s rhetoric about stability and fighting extremism and international organizations accept china s presentation of uyghurs and other people as minorities within a chinese nation state this book instead shows east turkistan can correctly be understood through history and law as an illegally occupied territory undergoing genocide it also makes the case that east turkistani people had basis advancing territorial claim for independence

the first edition of infection prevention reviewed evolving areas in infection prevention on topics including contact precautions technology implementation specific infections and care in various settings it summarized the current data on infection prevention presents controversies on the various topics and includes recommendations for patient safety addressing hot topics such as mrsa c difficile vaccination mandatory flu vaccines and clabsi this is the only text to include prevention and control overviews across a range of infection issues written by experts in the field this successor edition will update current chapters on the most cutting edge models of care on emerging and evolving topics in infectious diseases it will also include new material and chapters on high level disinfection diagnostic test stewardship unique pathogens units outpatient antibiotic stewardship outpatient antibiotic therapy as well as a chapter on infection prevention metrics how much can we prevent healthcare associated infections and how hard should we try the second edition of infection prevention new perspectives and controversies is a valuable resource for infection prevention professionals healthcare quality and safety professionals caring for patients in in and outpatient settings
